Art Unit: 1714

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 94 is rejected under 35 U.S.C. 103(a) as obvious over DE 1234234 in view of McClain (US 4,287,333) or Stramel (US 5,397,391).

Rejection is maintained for reason of record and following response.

A dried film formed be a painting meets the instant polymer film since any water or organic solvent present in a paint composition has been evaporated.

Claims 94 and 95 are rejected under 35 U.S.C. 103(a) as obvious over Menovcik et al (US 5,876,493) in view of McClain (US 4,287,333), Stramel (US 5,397,391), Yaginuma et al (US 3,920,769) or Orth-Gerber et al (US 6,340,387).

Rejection is maintained for reason of record and following response.

A dried film formed be a painting meets the instant polymer film since any water or organic solvent present in a paint composition has been evaporated.

Art Unit: 1714

Claims 68-93 are allowed since instant amendment reciting essential absence of water and organic solvents overcame the rejection based on coating compositions and since applicant's statement regarding the basis for the recited limitation is persuasive.
